June 13, 2005

## **ROUTE 30 BRIDGE RETROFIT WILL REQUIRE TEMPORARY NIGHT CLOSURE OF INTERSTATE 215**

Route 210 construction will require widening the existing Route 30 bridge over Interstate 215 in San Bernardino. This work will allow Route 210 to connect directly to Route 30 in the future. The bridge widening will require removing the railing on both sides of the bridge, which will require the temporary night closure of the northbound and southbound lanes of I-215.

The closure will occur over several nights the week of June 20-25. Crews will work between 10 p.m and 5 a.m. to minimize travel disruption. Detours will be in place with signs to direct drivers through the area. Detours include:

### **Northbound on I-215**

Traffic will be detoured to eastbound Route 30. Drivers will exit at Waterman Avenue, enter westbound Route 30, and then reconnect to northbound I-215. This detour likely will be in effect the night of June 20-21.

### **Southbound on I-215**

Traffic will be detoured onto University Avenue to Cajon Boulevard. Drivers will head south to Mount Vernon Avenue and north to southbound I-215. This detour is expected to be in place June 22-23.

San Bernardino Associated Governments regrets any inconvenience this construction may cause and thanks residents in advance for their patience. For more project information, call the Route 210 toll-free helpline at 1-866-HELP-210 or visit the SANBAG website at [www.sanbag.ca.gov](http://www.sanbag.ca.gov). Please allow extra travel time, follow signs and posted detours, and drive carefully through construction zones.

**Remember: Safety: It's no accident!**
